**CHART A COURSE ALONG ALASKA’S CAPTIVATING COAST.**

Follow Alaska’s glacier-carved coastline to discover formidable glaciers, endless forests, snow-capped peaks, majestic wildlife, scenic villages, and dynamic cities.

**DISCOVER THE GLORY OF HUBBARD GLACIER**

Witness the drama of a calving as a tidewater glacier moves toward the sea.

Comprised of the longest river of ice in North America, beginning in Canada and flowing 76 miles to Russell Fjord, the glacier originates at Mount Logan, North America’s second highest mountain. And while 95% of the world’s glaciers are receding, Hubbard Glacier is still advancing.

As the largest advancing tidewater glacier in North America, Hubbard Glacier’s terminal face is the dramatic end of a process that began 450 years ago as snowfall on the slopes of Mount Logan. Where it meets the sea, the wall of ice (over 200 feet above the waterline and extends 250 feet below) moves forward movement of up to 36 feet per day results in regular calving – breathtaking moments when ice calves off the wall in enormous pieces that can reach the size of five-story buildings. With calving occurring on a daily basis, Hubbard Glacier offers the best opportunity to observe glacial processes as they unfold — a true once-in-a-lifetime experience.

Your captain will slowly turn the ship into Talkeetna Sound, navigating the1,100-foot-wide channel opening up a full view of the Inside Passage. Your guide will lead the way as you observe the natural drama as it unfolds.

Your captain will slowly turn the ship into Yakutat Bay, navigating the awe-inspiring scenery as you choose a vantage point to enjoy this incredible moment.

Denali National Park boasts six million acres of pristine wild land. The varied subarctic landscape is home to grizzly bears, moose, caribou, Dall sheep, and wolves, as well as endangered birds. Wild animals roam as they have for millennia through unspoiled backcountry of taiga forest, alpine tundra, and snow-capped peaks. The sheer expanse of wilderness, the solitude of the single road, and the park’s status as one of the last true, intact, subarctic ecosystems makes Denali one of the best places in the country to view wildlife in their natural habitat.

The Visitor Center offers fascinating natural history exhibits, films, and the opportunity to meet and speak to rangers about Denali National Park, including its centerpiece mountain, Denali. At 20,320 feet, Denali is North America’s highest peak, and is still growing. Rising miles into the sky, the mountain known as the Great One towers over the summits of the surrounding Alaska Range. The view on a clear day is a profoundly impressive sight.

Situated on three rivers in sight of the great mountain, Talkeetna offers breathtaking views, a folksy frontier spirit, endless outdoor activities, and the unique ambience of its eclectic Main Street.

Among climbers, Talkeetna is recognized as the ideal staging ground for preparations to summit Denali. Mountaineers from around the world start here, filling the town’s hotels and bars with expedition excitement. With a population of under 1,000, Talkeetna has a small but lively local community dedicated to keeping the backcountry spirit of Alaska alive. Log cabin cafés, along with the heritage buildings of its historic Main Street, provide a place where you can mill with the bohemians, aviators, and adventurers who call the town home.

The town’s unique location offers breathtaking views of the tallest peak in North America and provides access to every imaginable way to experience the magnificence of “The Great One” – from seasoned bush pilots taking you up into the skies and over the awe-inspiring north face, to leisurely hikes on quiet trails and down the glacier-fed Talkeetna River. Along Main Street, you’ll also find the full breadth of backcountry cuisine, from brew pubs to fine dining, as well as converted air streams serving signature dishes. During your time here, you’ll see how the town embodies her unofficial motto, “Talkeetna, where the road ends and life begins.”

ANCHORAGE
A cosmopolitan city perched on the edge of the wilderness, Anchorage is a gateway to natural attractions and the state’s center for the preservation of Alaskan Native cultures. Blending cosmopolitan excitement and the great outdoors, the city has a youthful exuberance that contributes to its lively nightlife, eclectic dining, and adventuresome atmosphere. Beyond the city limits of “Alaska’s Big Apple,” nature commands the terrain. As many as 60 glaciers are located within an hour’s drive. Uplifters can go for an icy mile by day, and by night enjoy Anchorage under the late evening aurora borealis. It’s a low-key craft beer town, and you can enjoy Anchorage under the late evening sun, socializing at a downtown brewery over a local craft beer. Even on weekdays it’s not uncommon to find a suited city worker angling for a catch on a lunch break.

Unlike any other American city, Anchorage boasts 250 miles of trails, sees moose passing through its neighborhoods, and is visited by whales that surface in the waters alongside the Tony Knowles Coastal Trail. And long summers days mean more time to explore its natural beauty by day and sample its innovative frontier fare long into the evening. Anchorage is home to Native Peoples from around the state, making the city the destination for discovering local history, art, and crafts at the heart of Alaskan identity. The Anchorage Museum preserves an extensive collection of native art, spanning prehistoric times to the present day. And the Alaskan artifacts at the Smithsonian Arctic Studies Center were curated and interpreted with help from the Alaska Native Heritage Center, a renowned cultural center and an exciting place to connect with indigenous residents.

SEWARD
On the shores of Resurrection Bay, the history-rich port town is nestled against the glacier-covered Kenai Mountains, and offers access to inspiring landscapes, incredible marine life, and exciting natural spectacles like calving glaciers. The pristine wilderness of the Kenai Peninsula is home to nesting seabirds, countless islands, wetlands, and breathtaking coastal views. Walk town is also the gateway to the Kenai Fjords National Park, and the Harding Icefield — an expanse of ice and snow created over 23,000 years ago — is within easy reach. The throngs of wildlife that course below, and glide above the park’s glacial waters, are legion. Here pods of humpback whales are known to breach when hunting, seals and sea lions lounge on rocky outcroppings, and bald eagles hover overhead.

The rugged landscape suits Seward’s hardy locals well. Every July 4th, Seward’s runners race 1.5 miles up and down Mount Marathon. Starting at sea level, the race rises 3,000 feet in elevation over very steep terrain. Runners race over gullies, ice, and snow, using their hands to haul themselves to the finish line. When not racing up mountains, you can find them at town watering holes and dining spots, where you can sample fresh Alaskan seafood, filleted straight from the ocean to your plate.
