SPECIALTY TREATMENT EXPERIENCES*

The elements of Sea, Earth and Air are combined with unparalleled expertise in massage and conditioning to relax, restore and rebalance the mind and body.

A potent blend for deeply eased muscles and healthy, revitalized skin.

A MINDFUL JOURNEY

Simple luxuries to enhance The Spa experience.

Time is the Ultimate Luxury

There is nothing like time for self. Embrace a moment in solitude or share the relaxation. Arrive early to experience the wonders of The Spa and discover serenity — a place to escape for an hour or a few.

Immerse Yourself in Wellness

SEA Thermal Suite is your gateway to relaxation. Begin the spa journey by purchasing a Thermal Suite pass. (Bathing suit required; robe and towels are provided.)

Wash All Cares Away

Prepare to receive all the benefits from the selected treatment. Prime the skin and body with a cleanse prior to the service and wash away all impurities — salts, minerals and oils — that could possibly be massaged into the skin. After a shower, wait in the Relaxation Lounge to be whisked away for the ultimate indulgence.

A Soothing Elixir for the Soul

Rich in antioxidants, tea is a mood enhancer. Depending on the selection, tea can calm the mind and body prior to a treatment, boost endurance, and improve health while safeguarding the immune system. In addition to tea, drink plenty of water to hydrate and replenish the body.

Connect with the Therapist

Healing hands are intuitive, but a conversation with your therapist will help guide and address areas of concern. During the treatment, let the therapist know if there is any discomfort or if the environment — temperature, lighting or sound — requires adjusting. A consultation prior to the service will provide the therapist with important details to make the experience more enjoyable.

Indulge in the Moment

An anticipated period of silence. Close your eyes. Inhale a deep breath. Exhale the breath. Allow the mind to drift away. Enjoy the quiet. Every bit of tension will disappear.

Linger in the Lounge

Extend your spa stay by resting in the Relaxation Lounge after the treatment. The quietude will lull mind and body into a deeper state of relaxation.

Continue the Journey

After your spa experience, browse through our spa products — many of which are featured in the treatments. The therapist will provide recommendations to purchase and continue the journey at home.

SIGNATURE BODY EXPERIENCES

SEA

Aroma Spa Seaweed Massage*

The power of aromatherapy is combined with the riches of the ocean in this deeply warming treatment. A heated mask containing a blend of essential oils is applied to the body before being cocooned in a wrap. The natural ingredients will detoxify, decongest and stimulate the body's systems. Includes either a 25-minute back massage or 50-minute full-body massage.

EARTH

R3 Pain Management Therapy — Relax, Repair, Relief

Highly recommended for back pain, joint stiffness, tired or aching muscles to help provide effective and immediate relief. Inspired by the benefits of cryotherapy, the power of "cold therapy" is re-imagined, reducing inflammation and swelling that causes pain. Comforting heat therapy uses targeted salt stone massage to relax and soothe muscle tension for a dynamic pain relief treatment.

100 min

AIR

Poultice-Powered Muscle Release*

Sore, aching muscles are worked away with this invigorating and deeply releasing treatment. Using a uniquely designed Amber and Quartz poultice, and combining the power of Eucalyptus and Juniper, each area of tension is specifically targeted with vibrational energy to re-mineralize. Painful knots are eased. Tension is dissolved. Completed by a restorative facial massage, the Amber and Quartz in the poultice talks to the Amber in the bed; a powerful mineral connectivity that invigorates the body and elasticizes the skin.

Lime and Ginger or Frangipani

The extraordinary cleansing power of salt goes to work releasing toxins in this body polishing treatment. The fragranced salt will gently slough away dead skin cells, encouraging the regeneration of new cells and perfectly prepping the skin. The therapist will use deep tissue techniques or gentle strokes to melt away the tension and soothe the muscles into sweet oblivion.

100 / 75 / 50 min

Aroma Stone Therapy

Nothing gets into the belly of the muscle like a hot stone. Bathed in moisturizing body oil, a curated range of Balinese stones are selected to address exactly what the body needs. The result is a sparkling vitality with the added bonus of intensely hydrated skin.

TRADITIONAL CHINESE ACUPUNCTURE

Wellness is a state of optimal well-being. The Spa provides the best holistic care through acupuncture and traditional Chinese medicine.

Acupuncture

Quickly becoming one of the fastest growing alternative therapies, acupuncture is often recommended by family practitioners to complement and enhance the benefits of traditional medicine. The onboard acupuncturist is certified to safely and effectively treat an extensive list of symptoms and conditions including, but not limited to, pain management (sciatica, joint, muscle and arthritic pain), seasickness, smoking cessation, weight gain, insomnia and anxiety. Experiencing any of these symptoms is not a requirement to benefit from acupuncture. Many enjoy a session for a simple tune-up, enhanced relaxation, and well-being maintenance.

50 min

Recharge on a deeper level with the following Acupuncture enhancements:

LightStim Light Therapy

For a truly elevated and effective experience, pair LightStim with acupuncture to amplify results and create a synergistic blend of modern technology and ancient healing. FDA-cleared, LightStim uses multiple wavelengths of therapeutic LED light to reduce inflammation, diminish fine lines and wrinkles, ease pain, and support the body's natural healing process. This enhancement stimulates collagen production, improves skin elasticity, increases circulation, and relaxes muscle tension, making it ideal for both aesthetic and therapeutic benefits.

Cupping Therapy

Rooted in ancient healing traditions, Cupping Therapy is a deeply therapeutic treatment that uses gentle suction to lift and decompress the muscles. Ideal for relieving chronic tension in the neck, shoulders, and back, this technique stimulates blood flow, reduces inflammation, and improves overall mobility.

E-Stim Acupuncture

Enhance your acupuncture experience with Electro-Stimulation, an advanced technique that boosts the effects of traditional acupuncture through the use of low-frequency electrical pulses. This innovative therapy targets pain at the neurological level, interrupting pain signals while stimulating cellular regeneration and stem cell activity for lasting results.

Chinese Herbal Medicine Consultation

Herbs are integral to traditional Chinese medicine. The Spa features JOU®, a Chinese herb brand. JOU herbs are cultivated in Northern China by using the leaves, roots, stems, bark and petals of plants, shrubs and trees. Once collected, these ingredients are dried, crushed and then placed in a vegan capsule for easy consumption. Chinese herbs have been used as part of the traditional Chinese medicine system for thousands of years and have helped to alleviate many health issues. Ask for a complimentary consultation.

Be sure to ask about our Health and Wellness Seminar series.
